

Corporate Knights

THE CANADIAN MAGAZINE FOR RESPONSIBLE BUSINESS

♦ ♦ ♦
corporateknights.ca

READ BY LEADING DECISION MAKERS

In its ninth year of publishing, Corporate Knights is Canada's foremost magazine for responsible business. While pure traditional business magazines like Forbes focus in on the financial elements of companies and activist magazines like Adbusters treat companies as guilty targets to attack, Corporate Knights is focused on how companies impact people and the planet. Our editorial content supports the corporate quest to attain reputable standards of social and environmental responsibility.

In addition to in-depth surveys and investigative articles that take readers from the Mongolian Steppe to the Alberta oil sands, Corporate Knights has carved a solid niche as Canada's leading publisher of sustainability rankings, including the definitive annual list of the Canada's Best 50 Corporate Citizens, published each June.

Respected for its fairness and integrity, Corporate Knights is a must-read publication for Canada's leading decision makers and change agents in government, civil society and industry. Each issue draws correspondence from leading TSX CEOs, government ministers and civil society leaders.
